Dear Sir,

RE- JAMENA CONSTRUCCIONES S.L.

We have been involved with Jamena Construcciones S.L. for the past six years and have found their service to be exemplary and to the highest standards.

In 2005 we purchased three plots of land at Capanes Sur, near Benahavis, and we commissioned Jamena to construct three villas. One was for our own personal residence and the other two were to be offered for sale.

Works commenced on site in 2006 and our own villa was completed on time in September 2007. The remaining two properties were being constructed alongside this and were completed in 2008.

We have been extremely satisfied with the services provided by Jamena right from concept through to completion. Their assistance has been second to none with excellent attention to detail, client care and a high quality of workmanship.

We have recently purchased a further two plots of land and without hesitation intend to negotiate a further contract with Jamena in the near future.

Finally, it is worth noting that we are the owners of a successful construction company in the UK which currently benefits from a turnover in excess of £50 million per year, across all sectors of construction including residential, commercial, industrial and leisure. That said we have obviously observed Jamena from a builders perspective which can only add weight to their competence and ability if they are able to satisfy a client in the same field of expertise.

Should you require any further information do not hesitate to contact us further.

Yours faithfully,

Tim & Sheila Webber
Chairman & Managing Director
